Introductory Note

The National Statistics Directorate is issuing a revised version of the Quarterly Consumer Price Index publication for September quarter, which replaces the version issued on 15 October 2009. This revised publication was deemed necessary due to some errors detected by the NSD in data entered, mainly for the 3rd quarter 2009. For the sake of transparency that should guide the production and dissemination of official statistics, the NSD has proceeded to the revision of the data, which now presents in this publication. We would like to stress that measures have already been taken to avoid that such mistakes happen in future.

The NSD is looking forward to the continuous co-operation of our respondents and users in order to make available reliable and up-to-date official statistics.

Dili, 4 December 2009

Eliás dos Santos Ferreira
Acting Director
National Statistics Directorate

CONSUMER PRICE INDEX

TIMOR-LESTE

SEPTEMBER QUARTER 2009

The twenty first Issue-REVISED December 2009

SEPTEMBER QUARTER KEY FIGURES

<i>TIMOR - LESTE</i>	<i>% Change 3 months to Sep. 2009</i>	<i>% change 12 months to Sep. 2009</i>
Food	0.3	-2.5
Alcohol and tobacco	0.1	0.5
Clothing and footwear	0.6	1.5
Housing	-0.4	1.9
Household furnishings, supplies and services	0.0	-0.5
Health	0.2	4.4
Recreation and education	0.0	-0.4
Transport and communication	1.1	-13.5
All groups	0.2	-1.7
All groups excluding Housing	0.3	-2.1

SEPTEMBER QUARTER KEY POINTS

THE ALL GROUPS CPI

- Rose (0.2%) in September quarter 2009 when compared to June quarter 2009 (0.0% in June quarter and -0.6% in March quarter 2009).
- Decreased (1.7%) in annual change to September 2009 (-2.8% in June 2009 and 2.8% in March 2009).

OVERVIEW OF CPI MOVEMENTS

- Contributing to the overall increase this quarter were vegetables (1,5%), eggs, milk and their products (1,4%) , transport (1,4%) and footwear and personal effects (1.3%).
- Contributing to the annual decrease were price falls in transports (-16,0%), fats and oils (-12,2%) and cereals, roots and their products (-8.9%).

ABOUT THIS AND FORTHCOMING ISSUES

This data release includes index level and percentage movement tables for both the Timor - Leste CPI and the Dili Region CPI.

The Timor - Leste CPI will continue to be produced each quarter, and the Dili Region CPI will continue to be produced on a monthly basis.

FORTHCOMING ISSUES	ISSUE	RELEASE DATE
	December 2009	14 January 2010
	March 2010	15 April 2010

ROUNDING Any discrepancies between index numbers and percentage changes in this data release are due to rounding off.

EXPLANATORY NOTES

.....

BRIEF DESCRIPTION OF THE CPI

1 The Consumer Price Index (CPI) measures monthly changes in the price of a 'basket' of goods and services which account for a high proportion of expenditure by resident households. This 'basket' covers a wide range of goods and services, arranged in the following eight groups:

- Food
- Alcohol and tobacco
- Clothing and footwear
- Housing
- Household furnishings, supplies and services
- Health
- Recreation and education
- Transports and communication.

2 The first official release of the Dili region index series is reference period June quarter 2003; the Dili region index series commences December 2001. The first official release of the Timor-Leste index series is reference period September quarter 2004; the Timor-Leste index series commences June 2003. These indexes measure price movements over time in the Dili region and Timor-Leste. They do not measure differences in retail price levels between different regions.

PRICE COLLECTION

3 The frequency of price collection by region varies as necessary to obtain reliable measures of price movements. Each month prices are collected at regular intervals for all items in the Dili region. Prices are also collected at regular quarterly intervals for all items from a representative selection of other regions throughout Timor-Leste. The measure of the interim monthly price movements for each item outside the Dili region is then estimated using the corresponding Dili region item price movement as an indicator series.

WEIGHTING PATTERN

4 There are 30 sub-groups (that is, categories of like items) in the first series CPI and each sub-group has its own weight, or measure of relative importance. In calculating the index, price changes for the various sub-groups are combined using these weights.

EXPLANATORY NOTES

ANALYSIS OF CPI CHANGES

5 Movements in indexes from one period to another can be expressed either as changes in index points or as percentage changes. The following example illustrates the method of calculating changes in index points and percentage changes between any two periods:

All groups CPI: Dili region,

	Index numbers:
March 2003	111.0
<i>Less</i> December 2002	109.5
<i>Equals</i> Change in index points	1.5
Percentage change	$= \frac{1.5}{109.5} \times 100 = 1.4\%$

6 Tables 2 and 4 provide a detailed analysis, for the Dili region and Timor-Leste, of movements in the CPI over 13 months, including information on movements for groups and sub-groups.

INTERNATIONAL COMPARISONS

7 In analysing price movements in Timor-Leste, an important consideration are Timor-Leste's performance relative to other countries. However, due to the many differences in the structure of the housing sector in different countries and in the way that housing is treated in their CPIs, a simple comparison of all groups (or headline) CPIs is often inappropriate. To provide a better basis for international comparisons, the Fourteenth International Conference of Labour Statisticians adopted a resolution, which called for countries to 'provide dissemination at the international level of an index which excludes shelter, in addition to the all-items index'.
